What if I cannot find a course in schedule planner?

If you search for a course in schedule planner and receive “no matches found” it is due to one of the following reasons:

1) The course is not being offered
2) The course is full/waitlisted

How do I know which reason is true?

1. Go to https://buckeyelink.osu.edu/ and click on “My Buckeye Link" to log-in
2. Click on the “Add a Class” link

3. Select the appropriate term and click Continue

4. Click the “Search” button
5. Search for the course – be sure to leave “Show Open Classes Only” unchecked

6. If you receive the following message, you know the course is not being offered.
7. If your search produces results, **you know the course is full/waitlisted**. Check the status of the class to confirm.

**How do I make a full/waitlisted course appear in schedule planner?**

1. On the main page, change “Course Status” to Open & Full w/Waitlist Open
